

I currently listen to Air 1 Radio on my FM station 90.1. It is important to me that the current FM translator service remains intact. If I lost my station due to a new LPFM station I wouldn't have any radio to listen too. I only listen to Christian radio and Air 1 is the only station to play the artists I know and love. It is so important to me and my husband that we are monthly monetary supporters of Air 1. Air 1 provides a necessary service to all young Christians who wish to escape the trap of secular music. I listen to Air 1 for about 9 hrs per day except on weekends. My sister listens to Air 1 to fall asleep w/o bad dreams. Please do not expand the LPFM station service. Please keep FM translator service as a priority over these other services. Thank you very much for your time and consideration.
